Other Cleaning Methods

When it comes to cleaning up a spill there can be hundreds of different methods you can use. But what is more important than what you use to clean up the spill is what you are left with afterwards that matters.

If you have used any of the methods we've covered in our white papers, you already know the results are and what to expect. We have tried every product we can find and have done extensive testing and research on these products.

We are so confident Spill solved will outperform them in every way, we offer a 100% money back performance guarantee. When used as directed and in accordance with the SDS, If Spill Solved doesn't clean up the spill as advertised, we will replace it or refund your money.

If Spill Solved is not the most effective and best performing product you can find we want to know about it. Contact us for a no charge, no obligation visit to your facility and we can do a fair and honest comparison. Or, send us a message telling us what liquids you work with and what you use to clean up spills and we will upload a video with the results.

Switch to Spill Solved and start saving Time, Money, Effort and Liability today, you'll be glad you did!
